Craig made a motion to remove the plants and put sod up to the wall and relocate plants. We can check the grade to see if it can be lowered. Rozann seconded the motion and all approved.

Craig made a motion to have Innovative install landscaping along the right hand wall at the entrance by the gate so the board can review the plants and decide if they like them. Rozann seconded the motion and all approved.

Innovative needs to cut the Parotis Palm with each visit.

Cindy will speak to Mike about the gates so the residents and visitor's gate don't allow people through at the same time.

Since there was no further business, the meeting was adjourned.
